Thanks to all of the racers who came to the Transfer PA race. You all put on one hell of a show!

The track was awesome as usual. 160 ft. clay, sand mixture.

Thanks for everyones patience with the timing system. The lights were taken out no less than 4 times. Mike Z and the crew did a great job of patching it back together each time.

Unfortunately, all of the sensors, including the spares, were destroyed and the Open class did not get their second round pass.
